

Compliance Screening Note

Kestrel Bay Industrial Services Pte. Ltd. (fictional)

(Specimen internal compliance screening note, for workflow-testing purposes only.)

TPA	Kestrel Bay Industrial Services Pte. Ltd.
Prepared by	Internal Compliance Business Partner (fictional)
Date	8 January 2026

Observations

Organisation-specific: During onboarding review, we noted ambiguity in the Contractor's resources, experience capability and staff qualifications relative to the scope of the awarded engagement — the Contractor's declared headcount (approximately 12 staff) is small relative to the scope of technical advisory work awarded. This is flagged for capacity monitoring, not as a basis to withhold onboarding.

Transaction-specific: The Contractor has requested that payment under the Technical Advisory Services Agreement be split across two separate bank accounts — its own operating account, and a second account held in the name of a separate corporate entity, described as a subcontractor pass-through arrangement. This constitutes a payment arrangement involving multiple transactions to different bank accounts and is flagged for further review before payment instructions are finalised.
